Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 4-7 and 10-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4 the phrase "the above formula 1" lacks proper antecedent basis as no formula appears in claim 4.

Claim 7 is vague and indefinite as it fails to further limit claim 7 as it is unclear as to how as future use limits a composition claim.

In claim 10 the term "methacrylate" is inconsistent with "(meth)acrylate" which is the terminology used in the claim from which this depend. Applicant should use consistent terminology.

In claims 11 and 12 the phrase "an effective amount" is vague and indefinite as no end result is recited. Also the phrase "treating....thereto" makes no sense.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1755

4. Claims 1-4, 7-9 and 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by PCT International Application No. WO 97/11135.

The reference teaches, in the claims, a fluorinated compound that encompasses the formula that is instantly claimed. See Formula 1b. The composition is useful for making substrates oil and water repellent.

The instant claims are met by the reference as the reference teaches a formula that encompasses that which is instantly claimed.

5. Claims 1-4, 7-9 and 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent Specification No. 10-168383.

According to the chemical abstract attached to the reference, the reference teaches the use of a fluorinated compound that encompasses that which is instantly claimed. The composition provides a coating that is water repellent, excellent in wear resistance, anti-blocking etc.

The instant claims are met by the reference as the reference teaches a formula that encompasses that which is instantly claimed.

6. Claims 1-4 and 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by PCT International Application No. WO 99/05345.

The reference teaches, in the claims, a fluorinated compound that encompasses the formula that is instantly claimed. See especially claim 1. The composition is useful for making substrates oil and water repellent.

Art Unit: 1755

The instant claims are met by the reference as the reference teaches a formula that encompasses that which is instantly claimed.

Information Disclosure Statement

7. The remaining references cited by applicant have been considered however they are not seen to teach and/or fairly suggest the instant invention.
